

Exeter Public Library Service Policy

The Exeter Public Library serves the people in the Exeter area without regard for age, sex, race, ethnic background, religion, education, economic status or political affiliation. As a member of the Ocean State Libraries (OSL) consortium, Exeter Public Library makes its collection available to anyone with an OSL library card.

The library's collection is chosen for people of all ages and abilities. It includes books, magazines, newspapers, DVDs, audiobooks, music CDs, museum passes, and special homeschool teaching kits.

The library's services include reference and reader's advisory for both children and adults. We offer Internet access, WIFI and programs for people of all ages. The library's website provides access to the library's schedule of events and the OSL catalog and links to other Internet resources.
